

Title: **Vision 2099 (4)**

Stakeholders: **Kiruna kommun**

Scale: **Text**

Issuance date: **2004**

Type: **Design document**

Connections: 3

Language: **Swedish**

Pages: **2-2**

Description:

Vision 2099 is to be considered the first project for the new city of Kiruna. It was created by the municipality in response to the letter from LKAB. In these few lines, all the main aspects and expectations of the municipality for the new city are condensed. The document, which despite being a project document is presented anonymously, had the strength to influence the design process. The principles it contains proved to be fundamental in subsequent planning documents.
